**Sub.: Six Monthly Compliance Report of Environmental Clearance for Limestone Mine (Block 3B2, Applied ML Area - 470.00 ha.) with limestone production capacity 3.8 Million TPA, Waste and Topsoil: 4.887 Million M<sup>3</sup> per Annum for the period: October-2022 to March-2023 by M/s. JSW Cement Ltd. Located near Village - Sarasani, Tehsil - Nagaur, District - Nagaur, Rajasthan.**

**Ref.: Environment Clearance vide F. No.: J-11015/125/2018-IA.II (M) dated 31.08.2020 granted by MoEF&CC.**

Dear Sir,

With reference to above subject and reference, please find attached herewith the Six Monthly EC Compliance Report for the period: **October-2022 to March-2023.**

We wish to inform that our Mining Lease was executed on 10/04/2023 and the lease registration was done on 12-04-2023.

As per the MoEF&CC notification No.: S.O. 5845(E) dated 26.11.2018 the soft copy of the same is being sent through email to the following authorities: -  
[iro.jaipur-mefcc@gov.in](mailto:iro.jaipur-mefcc@gov.in); [moef@gov.in](mailto:moef@gov.in); [monitoring-ec@nic.in](mailto:monitoring-ec@nic.in); [member-secretary@rpcb.nic.in](mailto:member-secretary@rpcb.nic.in); [cpcb.bhopal@gov.in](mailto:cpcb.bhopal@gov.in) & [ccb.cpcb@nic.in](mailto:ccb.cpcb@nic.in)

We have also uploaded the compliance report on the Parivesh Portal.

We hope the compliance is in order.

Thanking you,

Yours Faithfully,

For M/s. JSW Cement Ltd.

(Arvind Kumar Sharma)

AVP - Environment & Sustainability & authorized signatory

**Environment Clearance vide F. No.: AI-J-11015/125/2018-IA-II(M) dated 31<sup>st</sup> August, 2020**

<b>A. SPECIFIC CONDITION*</b>				
<b>S. No.</b>	<b>Condition Type</b>	<b>Condition Details</b>	<b>Self-Declaration</b>	<b>Remarks / Reason / Status as on 31<sup>st</sup> March, 2023</b>
i.	MISCELLANEOUS	The grazing land may be excluded from the ML area or no mining operations shall be undertaken in grazing land and adequate safety barriers shall be maintained between grazing and mining area throughout the mine life. Proper fencing shall be done surrounding the grazing land in East, North and West directions to prevent cattle from going inside the working area and free access for grazing.	Agree to Complied	NOC from Revenue Department of State Govt. has been obtained regarding Grazing land swapping in compliance of LOI. Accordingly, alternate land has been surrendered to Govt. along with the development fees as prescribed in Rule (7) of Rajasthan Tenancy Act-1955.
ii.	MISCELLANEOUS	The project proponent shall establish necessary facilities for measurement, treatment and monitoring. The project proponent shall be allowed to withdraw and/or intersect the groundwater table, only after permission from the CGWA.	Agree to Complied	NOC for ground water withdrawal has been obtained from the CGWA, New Delhi vide letter No.: CGWA/NOC/MIN/ORIG/2021/14057 dated 15/12/2021 and necessary facilities for measurement, treatment and monitoring will be established post mining lease execution. CGWA NOC copy is attached as <b>Annexure-1</b> .
iii.	MISCELLANEOUS	The project proponent shall implement site specific conservation plan for Schedule-I species namely, Indian Peafowl (Pavo cristatus), Chinkara (Gazella bennettii) and Monitor Lizard (Varanus bengalensis) in consultation with the State Forest Department with proposed budget of Rs. 250 Lakhs, as per the recommendation of the Chief Wildlife warden.	Being Complied	Wild life conservation plan has been approved by PCCF (WL), CWLW, Jaipur, Rajasthan. Conservation plan will be implemented in phase manner post ML execution.

iv.	Greenbelt	Plantation shall be carried out as per the mining plan both concurrent and closer phase reclamation, inter alia, including plantation all along the boundary (Safety zone-9.70 Ha) of the mining lease shall be completed in 2 years of commencement of mining operations with a saplings of native and broad leaved species of not less than 12 feet, record keeping, gap plantation and grassing as per the directions of the Hon'ble Supreme Court.	Agree to Complied	Mining operation is yet not been commenced, post commencement of mining operation within two years greenbelt in safety zone will be done.
v.	PUBLIC HEARING	The project proponent shall implement the commitments made on the issues raised in PH and activities proposed under CER, in a period of three years and record for the same shall be maintained and audited and reported to the Regional Office of the Ministry along with the compliance reports.	Agree to Complied	Mining Lease yet not executed, will be complied post ML execution.
vi.	MISCELLANEOUS	Transportation of limestone from mine site to crusher through internal road and then to proposed Cement Plant through Covered Conveyor Belt System (tentative distance of plant from mine is 5 km) and for trading by tippers through public roads.	Agree to Complied	Mines lease was yet not executed till 31 <sup>st</sup> March 2023, company will comply with the same post mining lease execution and during mine operation.
vii.	MISCELLANEOUS	Total excavation shall not be exceeded 15.948 MTPA, inter alia, including Limestone Production Capacity 3.8 Million TPA, Waste 12.03 MTPA and Topsoil 0.118 MTPA.	Agree to Complied	Mining operation is yet not been commenced.
viii.	MISCELLANEOUS	All the mitigation measures committed / envisaged in the EIA/EMP report and subsequent submission shall be implemented.	Agree to Complied	ML not executed till 31 <sup>st</sup> March 2023.
ix.	Statutory compliance	In pursuant to Ministry's O.M. No 22-34/2018-IA.III dated 16.01.2020 to comply with the direction made by Hon'ble Supreme Court on 8.01.2020 in W.P. (Civil) No 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.	Agree to Complied	Mining Lease yet not executed, will be complied post ML execution.
<b>B.</b>	<b>STANDARD CONDITIONS: -</b>			
<b>I.</b>	<b>Statutory compliance</b>			
1).	Statutory compliance	The EC granted to the project/ activity is strictly under the provisions of the EIA Notification, 2006 and its amendments issued from time to time. It does not tantamount/ construe to approvals/ consent/ permissions etc. required to be obtained or standards / conditions to be followed under any other Acts/ Rules/ Subordinate legislations etc., as may be applicable to the project.	Agree to Complied	Noted & all approvals/NOC/consents will be obtained as applicable to the project as per statutory requirements /rules.

2)	Statutory compliance	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2 <sup>nd</sup> August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.	Agree to Complied	We will comply against the same before commencement of mining operation.
3)	Statutory compliance	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.	Complied	This is an auctioned new mine block and mining operation yet to be started.
4)	Statutory compliance	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".	Agree to Complied	Mining lease is yet not been executed, post ML execution mines will comply with the stipulated condition.
5)	Statutory compliance	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.	Complied	EC copy have been marked to concerned Panchayat.
6)	Statutory compliance	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.	Complied	This condition is not relevant to the JSWCL. RSPCB - Regional Office displayed the EC as per EIA notification.
7)	Statutory compliance	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.	Complied	Notice advertisement in newspapers regarding to grant of EC had been published in Rajasthan Patrika and The Times of India on 07.09.2020 and copies of the newspapers submitted to the concerned authorities. Copy of newspapers are attached as <b>Annexure-2</b> .
8)	Statutory compliance	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred than mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.	Agree to Complied	Noted & will be complied.
<b>II.</b>	<b>Air quality monitoring and preservation</b>			

9)	AIR QUALITY MONITORING AND PRESERVATION	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM 2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.	Agree to Complied	Mining Lease yet not executed, post ML execution, will comply with the same.
10)	AIR QUALITY MONITORING AND PRESERVATION	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEF&CC/ Central Pollution Control Board.	Agree to Complied	Mining lease is yet not been executed, post ML execution mines will comply with the stipulated condition.
<b>III. Water quality monitoring and preservation</b>				
11)	WATER QUALITY MONITORING AND PRESERVATION	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then project proponent shall ensure that prior approval from CGWA and MoEF&CC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.	Complied	NOC for ground water withdrawal has been obtained from the CGWA, New Delhi vide letter No.: CGWA/NOC/ MIN/ORIG/ 2021/14057 dated 15/12/2021, for details, please refer the <b>Annexure-1</b> . Necessary facilities for measurement, treatment and monitoring will be established post mining lease execution.
12)	WATER QUALITY MONITORING AND PRESERVATION	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six- monthly basis to	Agree to Complied	Mining Lease is yet not executed, post ML execution company will comply with the same.

		the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.		
13)	WATER QUALITY MONITORING AND PRESERVATION	The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.	Agree to Complied	Mining lease yet not executed, after execution of ML, company will comply with the stipulated condition.
14)	WATER QUALITY MONITORING AND PRESERVATION	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J- 20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.	Agree to Complied	Mining Lease yet not executed, post ML execution will be comply with the same.
15)	WATER QUALITY MONITORING AND PRESERVATION	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.	Agree to Complied	Post Mining lease execution, will comply with the same.
16)	WATER QUALITY MONITORING AND PRESERVATION	Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.	Agree to Complied	Mining lease is yet not been executed, post ML execution, mines will comply with the stipulated condition.

17)	WATER QUALITY MONITORING AND PRESERVATION	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.	Agree to Complied	Mining lease is yet not executed till date, once mining lease executed, will comply with the same.
<b>IV. Noise Monitoring &amp; Prevention</b>				
18)	Noise Monitoring & Prevention	The peak particle velocity at 500 m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.
19)	Noise Monitoring & Prevention	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the Villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. project proponents must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.	Agree to Complied	Mining lease is yet not executed, once mining lease executed, will comply with the same.
20)	Noise Monitoring & Prevention	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory deVices along with adequate training, awareness and information on safety and health aspects. The project proponent shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.	Agree to Complied	Mining lease is yet not executed, once mining lease will be executed, we will comply with the same.
<b>IV. Mining Plan</b>				
21)	MINING PLAN	The Project Proponent shall adhere to approved mining plan, inter alia, including, total excavation (quantum of mineral, waste, over burden, inter burden and top soil etc.); mining technology; lease area; scope of working (method of mining, overburden & dump management, O.B. & dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life; etc.).	Agree to Complied	Mining lease is yet not executed till date, once ML will executed, comply with the same.
22)	MINING PLAN	The shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. Project proponent shall	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.

		ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.		
<b>V. Land reclamation</b>				
23)	LAND RECLAMATION	The Overburden (O.B.), waste and topsoil generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB / waste dumps / topsoil dump like height, width and angle of slope shall be governed as per the approved Mining Plan and the guidelines/circulars issued by D.G.M.S. The topsoil shall be used for land reclamation and plantation.	Agree to Complied	Mining lease is yet not been executed till date, once mining lease will be executed, comply with the same.
24)	LAND RECLAMATION	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ Levelling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.
25)	LAND RECLAMATION	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be desilted regularly, particularly after monsoon season, and maintained properly.	Agree to Complied	Mining lease is yet not executed; we will comply against the same, once ML will be executed.
26)	LAND RECLAMATION	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years' data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.
31)	LAND RECLAMATION	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.

		essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.		
<b>IX.</b>	<b>Public hearing and human health issues</b>			
32)	PUBLIC HEARING	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/ facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid contamination of underground water.	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.
<b>X.</b>	<b>Corporate Environmental Responsibility (CER)</b>			
33)	Corporate Environmental Responsibility	The activities and budget earmarked for Corporate Environmental Responsibility (CER) as per Ministry's O.M. No. 22-65/2017-IA.II (M) dated 01.05.2018 or as proposed by EAC should be kept in a separate bank account. The activities proposed for CER shall be implemented in a time bound manner and annual report of implementation of the same along with documentary proof viz. photographs, purchase documents, latitude & longitude of infrastructure developed & road constructed needs to be submitted to Regional Office MoEF&CC annually along with audited statement.	Agree to Complied	Mining lease has not been executed till date, once ML is executed we will comply with the same.
<b>XI.</b>	<b>Miscellaneous</b>			
34)	MISCELLANEOUS	The Project Proponent shall prepare digital map (land use & land cover) of the entire lease area once in five years purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEF&CC.	Agree to Complied	Mining lease is yet not executed till date, once ML executed, comply with the same.
35)	MISCELLANEOUS	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Agree to Complied	Mining lease is yet not executed till date, once mining lease will be executed, comply with the same.
36)	MISCELLANEOUS	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC & its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.	Agree to Complied	ML is yet not executed; post ML execution will submit the detailed EC compliance report.

37)	MISCELLANEOUS	A separate 'Environmental Management Cell' with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC.	Partially Complied	Mining lease is yet not executed; we will comply against the same, once ML will be executed. However, company has deputed an environment manager and a mining manager at site.
38)	MISCELLANEOUS	The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC Officer(s) by furnishing the requisite data / information / monitoring reports.	Agree to Complied	Till date no any visit of the Regional Office of the MoEFCC has been done and will extend full cooperation
39)	MISCELLANEOUS	In pursuant to Ministry's O.M. No. 22-34/2018-IA.III dated 16.01.2020 to comply with the direction made by Hon'ble Supreme Court on 08.01.2020 in W.P. (Civil) No. 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.	Agree to Complied	Mining lease is yet not been executed till 31 <sup>st</sup> March, 2023. Mines will comply with the stipulated condition, post ML execution.
23.	MISCELLANEOUS	The Ministry or any other competent authority may after/modify the above conditions or stipulate any further condition in the interest of environment protection.	Agree to Complied	Mining lease is yet not executed; we will comply with the same, once ML executed.
24.	MISCELLANEOUS	Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attracts action under the provisions of Environment (Protection) Act, 1986.	Complied	Noted
25.	MISCELLANEOUS	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/ High Court and any other Court of Law relating to the subject matter.	Agree to Complied	Noted.
26.	MISCELLANEOUS	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Agree to Complied	Mining lease is yet not executed; we will comply against the same once ML will be executed.
27.	MISCELLANEOUS	This issues with the approval of Competent Authority.	Complied	Noted.

पानी बचाये - जीवन बचाये  
SAVE WATER - SAVE LIFE

Validity of this NOC shall be subject to compliance of the following conditions:

**Mandatory conditions:**

- 1) Installation of tamper proof digital water flow meter with telemetry on all the abstraction structure(s) shall be mandatory for all users seeking No Objection Certificate and intimation regarding their installation shall be communicated to the CGWA within 30 days of grant of No Objection Certificate.
- 2) Proponents shall mandatorily get water flow meter calibrated from an authorized agency once in a year.
- 3) Construction of purpose-built observation wells (piezometers) for ground water level monitoring shall be mandatory as per Section 14 of Guidelines. Water level data shall be made available to CGWA through web portal. Detailed guidelines for construction of piezometers are given in Annexure-II of the guidelines.
- 4) Proponents shall monitor quality of ground water from the abstraction structure(s) once in a year. Water samples from bore wells/ tube wells / dug wells shall be collected during April/May every year and analysed in NABL accredited laboratories for basic parameters (cations and anions), heavy metals, pesticides/ organic compounds etc. Water quality data shall be made available to CGWA through the web portal.
- 5) In case of mining projects, additional key wells shall be established in consultation with the Regional Director, CGWB for ground water level monitoring four (4) times a year (January, May, August and November) in core as well as buffer zones of the mine.
- 6) In case of mining project the firm shall submit water quality report of mine discharge/ seepage from Govt. approved/ NABL accredited lab.
- 7) The firm shall report compliance of the NOC conditions online in the website ([www.cgwa-noc.gov.in](http://www.cgwa-noc.gov.in)) within one year from the date of issue of this NOC.
- 8) Industries abstracting ground water in excess of 100 m<sup>3</sup>/d shall undertake annual water audit through certified auditors and submit audit reports within three months of completion of the same to CGWA. All such industries shall be required to reduce their ground water use by at least 20% over the next three years through appropriate means.
- 9) Application for renewal can be submitted online from 90 days before the expiry of NOC. Ground water withdrawal, if any, after expiry of NOC shall be illegal & liable for legal action as per provisions of Environment (Protection) Act, 1986.
- 10) This NOC is subject to prevailing Central/State Government rules/laws/norms or Court orders related to construction of tube well/ground water abstraction structure / recharge or conservation structure/discharge of effluents or any such matter as applicable.

**General conditions:**

- 11) No additional ground water abstraction and/or de-watering structures shall be constructed for this purpose without prior approval of the Central Ground Water Authority (CGWA).
- 12) The proponent shall seek prior permission from CGWA for any increase in quantum of groundwater abstraction (more than that permitted in NOC for specific period).
- 13) Proponents shall install roof top rain water harvesting in the premise as per the existing building bye laws in the premise.
- 14) The project proponent shall take all necessary measures to prevent contamination of ground water in the premises failing which the firm shall be responsible for any consequences arising thereon.
- 15) In case of industries that are likely to contaminate the ground water, no recharge measures shall be taken up by the firm inside the plant premises. The runoff generated from the rooftop shall be stored and put to beneficial use by the firm.
- 16) Wherever feasible, requirement of water for greenbelt (horticulture) shall be met from recycled / treated waste water.
- 17) Wherever the NOC is for abstraction of saline water and the existing wells (s) is /are yielding fresh water, the same shall be sealed and new tubewell(s) tapping saline water zone shall be constructed within 3 months of the issuance of NOC. The firm shall also ensure safe disposal of saline residue, if any.
- 18) Unexpected variations in inflow of ground water into the mine pit, if any, shall be reported to the concerned Regional Director, Central Ground Water Board.
- 19) In case of violation of any NOC conditions, the applicant shall be liable to pay the penalties as per Section 16 of Guidelines.
- 20) This NOC does not absolve the proponents of their obligation / requirement to obtain other statutory and administrative clearances from appropriate authorities.
- 21) The issue of this NOC does not imply that other statutory / administrative clearances shall be granted to the project by the concerned authorities. Such authorities would consider the project on merits and take decisions independently of the NOC.
- 22) In case of change of ownership, new owner of the industry will have to apply for incorporation of necessary changes in the No Objection Certificate with documentary proof within 60 days of taking over possession of the premises.
- 23) This NOC is being issued without any prejudice to the directions of the Hon'ble NGT/court orders in cases related to ground water or any other related matters.
- 24) Proponents, who have installed/constructed artificial recharge structures in compliance of the NOC granted to them previously and have availed rebate of upto 50% (fifty percent) in the ground water abstraction charges/ground water restoration charges, shall continue to regularly maintain artificial recharge structures.
- 25) Industries which are likely to cause ground water pollution e.g. Tanning, Slaughter Houses, Dye, Chemical/ Petrochemical, Coal washeries, pharmaceutical, other hazardous units etc. (as per CPCB list) need to undertake necessary well head protection measures to ensure prevention of ground water pollution as per Annexure III of the guidelines.
- 26) In case of new infrastructure projects having ground water abstraction of more than 20 m<sup>3</sup>/day, the firm/entity shall ensure implementation of dual water supply system in the projects.
- 27) In case of infrastructure projects, paved/parking area must be covered with interlocking/perforated tiles or other suitable measures to ensure groundwater infiltration/harvesting.
- 28) In case of coal and other base metal mining projects, the project proponent shall use the advance dewatering technology (by construction of series of dewatering abstraction structures) to avoid contamination of surface water.
- 29) The NOC issued is conditional subject to the conditions mentioned in the Public notice dated 27.01.2021 failing which penalty/EC/cancellation of NOC shall be imposed as the case may be.
- 30) This NOC is issued subject to the clearance of Expert Appraisal Committee (EAC) (if applicable).

**(Non-compliance of the conditions mentioned above is likely to result in the cancellation of NOC and legal action against the proponent.)**
