- **Enhancing Shareholder Value:** The proposed amalgamation will enhance the economic value for the shareholders of the Transferor Company and the Transferee Company. It will result in deriving benefits for future capacity expansion and efficiency improvement measures marked by enhanced synergies and operational effectiveness. The public shareholders of the Transferor Company would become shareholders in the Transferee Company, which has an higher traded equity share base, greater market liquidity, and a diversified institutional investor base, thereby providing shareholders with enhanced liquidity, broader market participation, and improved opportunities for value realization. Shareholders in the Transferee Company get direct access to the economics of the Transferor Company.
- **Simplified structure and management efficiency:** The proposed amalgamation will result in a simplification of the existing corporate structure and eliminate administrative functions and duplications, reducing regulatory and legal compliances of two listed entities, eliminating multiple record keeping and reducing time and efforts for consolidation of financials at the group level, consequently reducing the administrative costs of maintaining separate companies, while reducing the multiple legal and regulatory compliances.
- **Unified Cement Platform:** Creating a consolidated cement platform supports Transferee Company's strategy, enabling category leadership, increased competitiveness, enhanced market share and efficient resource utilization.

Part IV of the Scheme, which deals with adjustment of the Amalgamation Adjustment Deficit Account created pursuant to the amalgamation with the

Am

Securities Premium Account of the Transferee Company, is expected, inter-alia, to yield benefits as below:

- Post amalgamation, the reorganization of reserves shall result in the right sizing of the financial statement of the Transferee Company which will reflect its true and fair financial position post amalgamation.

The Scheme is in the best interest of the Transferor Company and the Transferee Company and fair and reasonable to the shareholders, employees, creditors and other stakeholders of each of the Parties."

5. Recommendation of the Independent Directors

The Committee of Independent Directors of the Company, after due deliberations and due consideration of Valuation Report, Fairness Opinion, draft certificate issued by Statutory Auditor of the Company, all the terms of the Scheme, and other documents placed before the Committee, in particular the fact that the Scheme is not detrimental to the interests of the shareholders of the Company, recommends the Scheme for approval of the Board of Directors of the Company.
